

The Siteserv Group

With a proven track record and a client base covering major blue chip companies in the oil and gas sector, Siteserv continues to be one step ahead.

SITESERV

Siteserv supports the offshore industry with a broad range of world-class services and training.

We are a multi-discipline company with operations centered in the heart of the Philippines. We have been operating for over a decade and have established working relationships with many of the blue chip clients and major construction companies.

Our approach to Health and Safety, together with our ability to deliver and required quality performance to our clients, has given Siteserv the reputation to establish ourselves as a leading contractor for the future.

Siteserv's operations are centred in the heart of the expanding offshore industry in Asia. Our ability to supply large numbers of highly skilled personnel and services to our clients is essential to our success.

Siteserv aims to maximise our client relationships through coordination and planning to ensure targets and goals are achieved with minimum down-time or delay. This is achieved by delivering a host of services to the oil and gas industry from one source, reducing the client's overhead in the process. Flexibility and innovation combined with a "can do" attitude means we are constantly raising the bar with regard to health, safety and quality management.

Siteserv is involved in many of the industry's major offshore projects including the Shell Malampaya natural gas platform in the West Philippine Sea.

A large industrial facility, likely a refinery or chemical plant, is shown at sunset. The sky is a mix of orange, pink, and blue. In the foreground, there are several large, white, cylindrical storage tanks. Some of these tanks have blue and white wave-like patterns at their bases. A complex network of pipes, some painted red and others silver, runs across the ground. In the background, there are tall distillation columns and other industrial structures. A city skyline is visible in the far distance under the colorful sky.

Introduction

Siteserv continues to support the industry throughout Asia and is expanding to become a world leader in this field.

Training

Siteserv conducts training to the highest worldwide standards.

Training plays an important role in enhancing our reputation as a leading provider of industrial support services.

Our constant training schedule allows us to provide intelligent solutions across all sectors of the industry at globally recognised standards.

Our centers are raising the bar in this region, and we are currently accepting trainees from all over South East Asia and beyond.

This allows us to deliver internationally recognised and accredited training programs to our clients, whilst also improving the skills of our own highly trained workforce.

Siteserv professionals provide competency assessment and training in all of these fields:

- Scaffolding
- Insulation
- Rigging
- Blasting and Coating

Services

Siteserv provides a multi discipline solution with a single point of contact for an expanding selection of services.

Multi-disciplinary

By supplying of a whole range of offshore services, Siteserv can provide the best in safety and efficiency, nullifying our clients needs to outsource contractors. Siteserv is the most cost effective provider of solutions for construction, maintenance and shutdown projects offshore.

Siteserv is able to offer integrated services throughout all phases of the lifecycle of industrial assets: from maintenance, shut downs, modifications and decommissioning. Reliability is key to Siteserv, with a drive to continuously improve our services in the widest sense of the word. We take pride in completing projects under budget and on time. Siteserv delivers a wide range of services to international industrial companies.

- Mechanical
- Electrical
- Access (Scaffolding)
- Painting & Blasting
- Insulation
- Welding
- Asbestos Removal
- Mechanical Demolition
- Manpower Supply
- Equipment Rental & Supply
- Fireproofing

Siteserv understands that our success is due to our highly skilled workforce.

Siteserv puts our people at the forefront of our business, by supporting their well-being and constructing a top class working environment.

Our people are our best asset - We say it often and with good reason. It is only with the dedication and determination of our people that we can serve our clients and generate long lasting partnerships.

Culture– We believe a highly engaged workforce will continue to drive our success and help our people reach their full potential.

Development– We invest in attracting, developing and retaining talented people. We recognise that development should be continuous. This involves working with employees to develop opportunities that will maximise their contribution to the company.

Commitment – Our employees understand the firms mission and how to achieve it. Siteserv's personnel strategy aims to ensure the availability, engagement, motivation and continuous development of our employees.

SITESERV

People

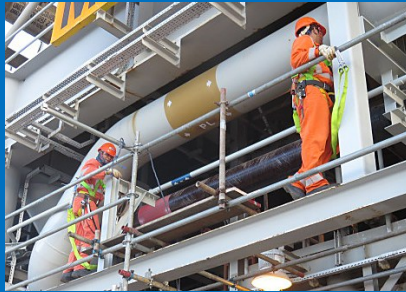

Siteserv understands that our people are our most important asset.

Safety

World-class quality management systems, and outstanding safety performance define the way we work.

Safety is at the heart of our business

Siteserv has a deep culture of workplace health and safety and we place it at the forefront of everything we do. We dedicate the same rigorous attention to health and safety to the on-site work that we conduct for our clients.

Siteserv is committed to providing a safe working environment for all employees. Our HSE management practices are under continuous review and improvement. World-class quality management systems, an outstanding safety performance and a resolute commitment to protecting and improving the environment define the way we work.

Our approach to safety is driven by the simple premise that safety transcends all commercial concerns. We are committed to the safety of our workforce, partners and the local communities where we work.

We recognise that robust safety is about combining sound equipment with professional and proficient people. This is why we work hard to foster a positive safety culture at Siteserv, driven by strong communication, teamwork and shared values.
